COSMO SHELDRAKE
Open air concert

HOW: Included in admission. No pre-booking necessary.

Hupehensis, occurring in October each year, is the sacrificial night ceremony of the Anemone Order. At dusk, the order gathers in the forest behind Wanås castle at a sacrificial birch altar decorated with animal antlers. With fire, song and mystical rites, the order is said to strive to "become one's own flesh" and appease the powers of the forest.

What happens at Wanås when darkness falls and visitors have gone home? Join a large-scale, interactive performance by the artist Carola Grahn in collaboration with the male choir Svanholms Singers. A performance that touches topics such as power, religious ceremonies, and the search for a way to live in balance with nature.

The performance is co-produced with KORO – Public Art Norway

WHERE: Starting point at the main parking lot.

HOW: Limited seating, advance booking required. Recommended for 15 years old and above. The performance includes a walk through the sculpture park at dusk. Warm clothes and boots are recommended.

The park consisting of around 80 permanent works indoors and outdoors and this year's exhibitions: Young-jun Tak: *Wish You a Lovely Sunday* (video installation in the Hay Barn) and Carola Grahn: *Trädgränsen* (works in the sculpture park) are on view

HOW: Included in admission. Grab a map in the Main Barn.
